Steve,

I am forwarding Lauren's email below and the attached draft document with comments/line edits. Appears R10 took our line edits just did not address all our marginal comments. Lauren will join us at the WLO weekly with David.

Thanks Lee, sounds good. Attached is the version with my comments, as well as comments from you, Leah, and Angela. It looks like most line edits were accepted, but that the comment bubbles were not addressed. I'm guessing that was a product of there being a time crunch to get a final version to Chris. The timing for our input wasn't clear in the emails.

He is not concerned about the Q@A document. He thought we should give David a copy of the at the weekly. Since David will read it, we should let him know the origins (R10 program) and they did not take all your comments. It certainly would need more work if it was to be shared within HQ. Steve did ask if you have a copy of the document with your comments so he, Steve, could see what comments the Region did not accept.
